

15th IAIS Annual Conference
2008 Budapest, Hungary

Mihály Erdős
Deputy Director General
Hungarian Financial Supervisory Authority

It is an honour and great pleasure for the Hungarian Financial Supervisory Authority to host a conference with such remarkable past like the Annual Conference of the IAIS. The conference provides an excellent chance for representatives of the insurance profession to exchange views on new developments and supervisory practices in order to enhance convergence all over the world. I hope all of the attendants will consider their days spent in Budapest successful and useful.
